

Product Formula(s):	Wax Bound and/or Soft Block Rodenticides
Hazard Rating:	May damage the unborn child. Causes damage to organs (blood) through prolonged or repeated exposure.
Use:	Rodenticide bait to control rats and mice indoors and outdoors
Reference:	Health and Safety Data
	Information provided by Killgerm Chemicals Ltd. PO Box 2, Ossett, West Yorkshire, WF5 9NA. Tel: 01924 268400

Product Types		
Product:	Auth Number:	Active Ingredient:
Contrac All Weather	UK-2015-0941	0.005% Bromadiolone
Solo Blox	UK-2015-0905	0.005% Brodifacoum
Talon® Wax Blocks	UK-2015-0907-0001	0.005% brodifacoum
Ratimor Difenacoum Blocks	UK-2011-0151	0.005% difenacoum
Selontra	GB-2020-1257	0.075% cholecalciferol

Under the terms of the Control of Substances Hazardous to Health Regulations 2002 an assessment will be made to determine that this particular treatment is the most appropriate for the pest control work concerned. Details of the location and quantity of the pesticide that has been applied are included within the pest prevention report book.

Only pesticides approved under the terms of the Control of Pesticides Regulations 1986 will be used and these are applied according to the label recommendations.

COSHH and Environmental Risk Assessment

	Hazard Detail	Controlled Risk	Protective/Preventative Measures
1.	Non-pest prevention personnel being affected by the application.	Low	Ensure that the amount of bait used is kept to a minimum. Place the baits in bait boxes. It is advised that these are tamper-resistant. Remove old or damaged baits and packaging from the site. Record type, quantity and location of the bait monitors on the appropriate forms.
2.	Pest prevention personnel being affected by the treatment.	Low	Apply the rodenticide according to the label recommendations. Wear non-absorbent gloves when handling the bait. Wash hands and equipment thoroughly at the end of the treatment.
3.	Non-target animals being affected by the treatment.	Low	Ensure the bait is applied where access to non-target animals is limited. Place the bait in specifically designed bait boxes. Ensure all spillages are cleared up.
4.	Spillage	Low	Sweep or wipe up spillage immediately and remove from site for disposal in a properly labeled container. Wash contaminated surfaces with detergent.
5.	Disposal	Medium	Burn or bury all rodent bodies to a minimum depth of 50cms. All waste bait should be collected, placed in a properly labelled container and returned to Paragon Products for disposal by a specialist waste contractor.

COSHH and Environmental Risk Assessment Continued

	Hazard Detail	Controlled Risk	Protective/Preventative Measures
6.	Fire	Low	High temperature decomposition or burning in air can result in the formation of toxic gases, which may include carbon monoxide and traces of bromine and hydrogen bromide. Do not inhale combustion gases. Inform emergency services of the type of product and supply them with health and safety data sheet.
7.	Theft of Product	Medium	Ensure product is kept locked away in the manufacturers approved container when not being applied. Inform the emergency services of the type and quantity of the product involved. Supply emergency services with health and safety data sheet.
8.	Poisoning	Low	In case of accidental consumption, rinse mouth carefully with water. Do not give anything by mouth or induce vomiting unless instructed by physician. Contact the doctor or vet and show them the product label or health and safety data sheet.
9.	Inhalation	Low	Not applicable.
10.	Skin Absorption	Low	Wear non-absorbent gloves when handling bait. In case of skin contact, wash with plenty of water and soap. Remove contaminated clothing, wash skin with soap and rinse thoroughly with water. Do not use solvents or thinners. If irritation develops, obtain medical assistance.
11.	Eye contact	Low	In case of contact with eyes, irrigate immediately with plenty of cool water for 15-20 minutes and seek medical advice.
12.	Environmental Risk	Low	Ensure that the product is disposed of according to the label recommendations.
13.	Exposure Monitoring and Health Surveillance	Low	Neither required.
